Herkules Maintenance Kit

Herkules Paint Gun Washers are built to last, but even they need tune-ups and minor repairs. Reduce maintenance downtime by keeping the most commonly used parts on hand with the Herkules Maintenance Kit. Stored in a sturdy, re-usable container, easily keep 15 of the most frequently requested parts at your fingertips, and save nearly 25% over buying the parts individually.

**15 Parts in One Kit = Big Savings
in Time and Money**

Made in the USA

*The kit includes the following parts:
air cap assemblies, e-rings, brass nipples,
trigger lock assemblies, limit valve, fulljet
nozzles, male & female stem supports,
mechanical timer with and without knob,
pump inlet filter, 338 pump muffler, filter
regulator, blue tube and black tube.*

Herkules Equipment provides innovative,
industry-leading products:
ergonomically-sound, customized industrial
lifts to American-made shop lifts, paint gun
washers to environment-friendly crushers
and other types of handling equipment that
out-perform leading name brands.
