Herkules Paint Cleaning Hits the Spot *Sparkle Clean Aerosol Paint Cleaner has new Multi-Function Cap*

Walled Lake, Michigan, June 23, 2017--- How do you improve a great product? Add new features or capabilities; which is why Herkules now offers a new cap for our aerosol paint cleaner Sparkle Clean. Users now have two stream options: wide or narrow enabling users to target a wide area, or focus on narrow chamber, with the flip of the lid. “We wanted to provide more cleaning options, and the new cap allows us to do just that,” remarked Kevin Prost, Herkules Vice President. “Sparkle Clean already offers a narrow stream through an attached straw; our new cap retains that option, but also enables shops to clean a larger area quickly and efficiently, with a simple adjustment.”

Effective with either solvent or waterborne paints, Sparkle Clean provides a method to quickly clean stubborn paint off of paint guns immediately. For more information, please contact Herkules by phone at **800-444-4351**, email at info@herkules.us, or visit our website at www.herkules.us.

Established in 1984, Herkules Equipment Corporation is a leading USA-based manufacturer with three distinct product lines. The original Herkules supplies the Automotive Paint & Body Repair industry, having designed, manufactured, and patented the first Paint Gun Washer. The BossLifts division supports the Oil Change, and Tire Service markets with innovative lifts and air jacks. The EnKon division designs and manufactures Scissor Lift Table Systems for the assembly and manufacturing industries. Herkules products are manufactured in Walled Lake, Michigan and supported by Michigan-based customer service.
