

A SINGLE
SCOOP DOES
THE JOB!

Herkules CoAgent ***Superior Coagulant for Waterborne Paint***

A single one ounce scoop is all it takes to coagulate paint.

Herkules CoAgent coagulant quickly and efficiently flocculates paint cleaning residue---up to five gallons of dirty waterborne paint cleaning solution. CoAgent coagulates waterborne paint so the paint waste can be captured in filters, and the cleaning solution re-used if desired.

Quickly and easily separate used paint from cleaning water or cleaning solution for simple and efficient paint waste disposal.
